WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Mostly sunny and dry weather is expected today. High temperatures will be a few degrees above normal. Winds will be light through midday, then increase out of the SW in the afternoon in advance of the next approaching Pacific low pressure system. Peak gusts this afternoon in the high country could reach 25-30 mph.

The initial band of rain is now expected to move onshore early tomorrow, and spread to a Klamath Falls-Burney-Willows-Santa Rosa line by late morning. Snow levels will be around 6,000 feet on the leading edge of the precipitation and 4,000 feet in far NW CA. The rain and mountain snow will continue to spread east and south later tomorrow, and showers are expected in most areas throughout the day on Monday, with snow levels 2,000-3,000 feet.

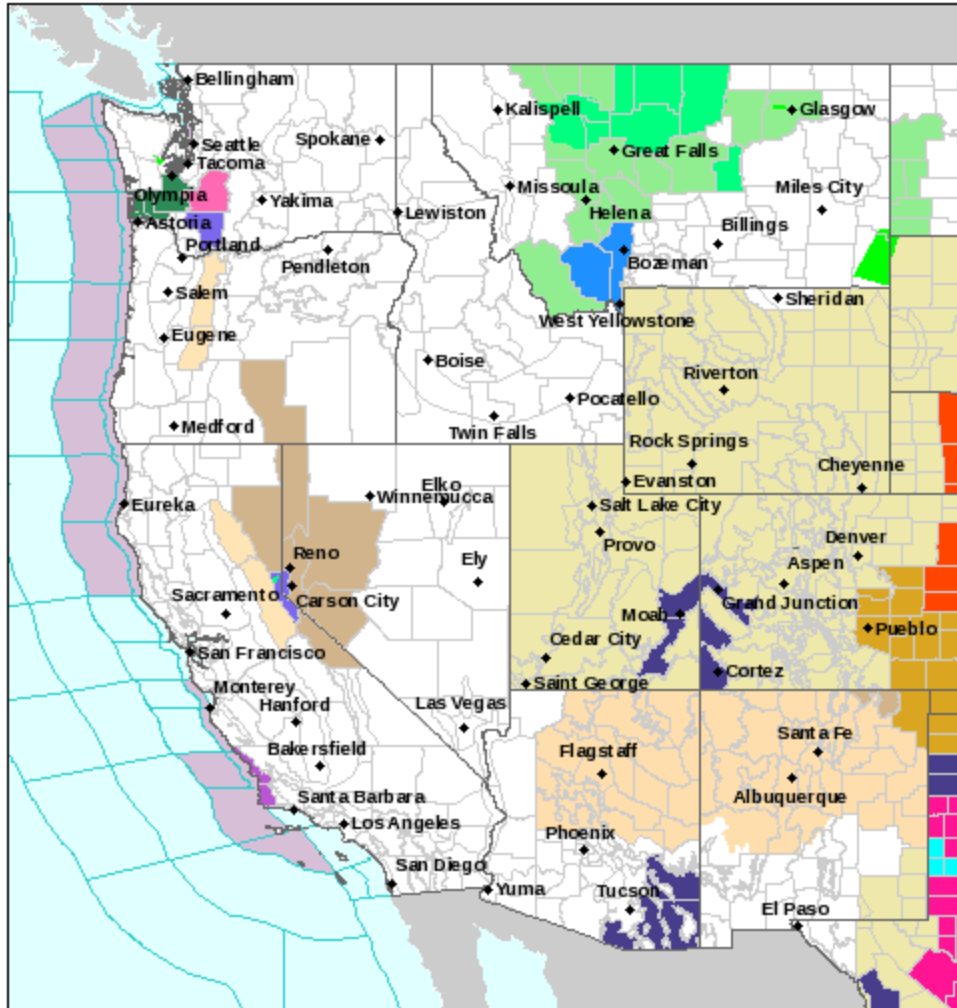

After a dry and partly cloudy day on Tuesday a lighter system will move through late Wednesday and Thursday with light rain.

SOUTHERN CALIFORNIA

Gusty north winds which persisted through the overnight hours is gradually weakening and veering to the northeast. Offshore gradients will peak during the early morning hours before they slowly abate through this morning. In general, northeast winds in these areas will be in the 15-30 mph range this morning with local gusts to 40 mph before weakening to 10-20 mph through the morning. Further warming is expected today, and by then, temperatures will be in the lower 90s in the warmest inland valleys of the region. Minimum relative humidity (RH) will fall into the 10-15% range over much of the region today with poor recovery tonight.

Next week, look for continuation of the large temperature swings experienced lately with a 2-3 day interval between very warm and cool weather. A trough will arrive tomorrow and Monday, resulting in gusty winds up to 45 mph in the desert along with light rain over the central coast and Sierras. Temperatures will drop back into the 50s in the mountains to the lower 70s in the valleys early next week before temperatures warm back into the 80s at lower elevations by Wednesday. Gusty north winds in Santa Barbara County and the I-5 Corridor are likely next Tuesday night. A stronger system may bring light wetting rain to Central CA by next Thursday with cooler temperatures and gusty winds elsewhere.

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2018-LAW-46158, 04/10/18, 1403 hours:** Mendocino County Sheriff's Office (MCSO) requested SAR mutual aid regarding a missing family of 4, whose vehicle is believed to have gone into the South Fork of the Eel River, North of Legget, on 04/06/18. Southern Humboldt County Technical Rescue accepted the mission. Cal OES Law Enforcement Duty Officer (LDO) facilitated a request to the California National Guard (CNG) so they can do a feasibility analysis of the area to further assist in prepping for this mission, should they be able to support it, as conditions become suitable for additional assets to search for the missing vehicle and family. **Update: 04/11/18, 0830 hours:** Humboldt County Sheriff's Office (HCSO) boat and team with a side scan sonar requested. HCSO accepted the mission to attempt to locate the vehicle as the water is muddy. **Update: 04/11/18, 1457 hours:** MCSO requested an airship from CNG (Lakota (UH-72) or Blackhawk) to assist them on Friday, 04/13/18, to search the area. CNG working on the request. **Update: 04/12/18:** CNG was unable to fill the request for 04/13/18, the same mission was requested of CNG for Monday, 04/16/18. CHP continues to assist MCSO with air operations. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
